2 comments : The pandemic of Fake Comments. The way to determine all of this is by chance. If you use a independent forex dealer and forex brokers to open an account with a trading system. It is time to begin searching the good ones. This is surely one of the best robot/scam than can now be set in the world. The pandemic of Fake Comments. The way to determine all of this is by chance. If you use a independent forex dealer and forex brokers to open an account with a trading system. It is time to begin searching the good ones. This is surely one of the best robot/scam than can now be set in the world.Q: How can I use variables in the php preg_match() RegEx? I'd like to have a regular expression in PHP that could match the following pattern: the \K # the "hi" \K # (1) "how" \K # the "are" \K # you "fine" \K # ? From: The hi How are you? Fine? To: 1 hi how are you? are you fine? Essentially, I'd like to match anything that follows the first word. I don't care about leading spaces at this point. My current code is: preg_match("/\K([a-zA-Z])/", $text); But this matches the entire string of text, not just the first word. A: You must use a lookbehind: $text = 'the \K # the "hi" \K # the "how" \K
